AUTHOR INDEX

Adams, C. W. M., 23
Allen, John M., 112, 341
Baker, John R., 570
Barka, Tibor, 208
Bell, J. T., Jr., 308
von Bertalanffy, Ludwig, 481
Bickis, Ivar, 481
Braun-Falco, O., 300
Bueding, Ernest, 357
Burstone, M. S., 131, 217
du Buy, H. G., 363
Carbonell, Luis M., 87
Dalgaard, Jörgen P., 14
DuBuy, H. G., 363
van Duijn, P., 55
Dunlap, Charles E., 254, 266, 284
Dunphy, J. Engleburt, 448
Eidinger, D., 200
Eränko, Olavi, 11
Farber, Emmanuel, 254, 266, 284, 347, 357
Fishman, William H., 570
Folk, J. E., 217
Fraccastoro, Alba P., 1
Fullmer, Harold N., 64
Geary, John R., 555
Ghosh, A., 200
Giel, R., 69
Glick, David, 389, 555
Gomori, G., 452
Gordon, Malcolm W., 84
Graham, A. E., 508
Green, Mary H., 108
Grose, Jerome, 227
Grunbaum, Benjamin W., 555
Guha, A., 212
Hall, Hazel E., 41, 382
Henderson, Anne E., 152
Hesselbach, M. L., 363
Holt, S. J., 541
Hooper, C. E. Stevens, 531
Howe, A., 561
Joel, Walter, 475
Jordan, William K., 301
Kasten, Frederick H., 310, 461
Landing, Benjamin H., 41, 382
Landsmeer, J. M. F., 69
Lessler, M. A., 36
Lillie, R. D., 64, 120, 318, 377, 479
Louviere, Connie D., 347
Lushbaugh, C. C., 499
March, Ruth, 301
Masters, Yanna F., 475
Meisel, Elizabeth, 499
Mescon, Herbert, 247
Monis, B., 498
Moretti, Giuseppe, 247
Nayyar, Som N., 389
Nurnberger, John I., 84
Ortman, R., 470
Pearse, A. G. E., 561
Phillips, M. G., 308
Pyne, C. K., 212
Richards, A. Glenn, 140
Rougvie, Malcolm, 227
Rutenburg, Alexander M., 17, 498
Scott, Jesse F., 1
Seligman, Arnold M., 17
Sen, B. B., 212
Shepherd, James A., 47
Shetlar, M. R., 475
Siminovitch, L. S., 508
Slater, Judith J., 112
Sokal, Zelda, 227
Sternberg, William H., 254, 266, 284
Szirmai, J. A., 97
Taft, Edgar B., 1
Takeuchi, Tadao, 84
Tandler, C. J., 331
Udupa, K. N., 448
Van Duijn, P., 55
Verney, Ethel L., 108
Wachstein, Max, 499
Weber, A. F., 308
Wolman, M., 195
Yoffey, J. M., 516

SUBJECT INDEX

Acidophils in frog pituitary, 470
Acid phosphatase in HeLa cells, 108
Acid phosphatase in human skin, 247
Acid phosphatase methods, 452
Adenosine triphosphatase in brain homogenates, 301
Adrenal alkaline phosphatase in mouse, 112
Adrenal, hamster, noradrenaline content, 11

Adrenal histochemistry and shock, 341
Adrenal, succindehydrogenase assay, 389
Aldehyde cyanide blockade reversal, 479
Aldehyde reactions of hydrolyzed nucleated red cells, 36
Aldehydes with thionin SO_2 and Schiff, 55
Alkaline phosphatase in mouse adrenal, 112
Aminopeptidase, histochemical demonstration, 217
Arthropod cuticle, microincineration, 140
Ascorbic acid effect on metachromasia, 448
Atheromatous arteries, chromatography and histochemistry, 152
Azo dyes, protein binding of, 17
Barium and uranyl effects in destaining of chromated brain, 69
Basophilia after phosphorylation, 41
Basophilia and fluorescence microscopy, 481
Blockades, reversal of KCN aldehyde, 479
Blocking reactions, effect on orcein stain, 64
Blocking reactions of Feulgen aldehyde in nucleated erythrocytes, 36
Blood cell turnover, 516
Blood estimation in tissue homogenates, 84
Book reviews, 299, 497
Books received, 83, 194, 299, 400, 497
Brain, adenosinetriphosphatase, 301
Brain and liver mitochondria and carbohydrate, 363
Bromination-Schiff reaction for nuclei, 208
Carbohydrate and brain and liver mitochondria, 363
Cardiac conduction system cholinesterase, 87
Cartilage polysaccharides, 475
Cell turnover in blood and blood forming organs, 516
Cell turnover in epithelia, 531
Cell turnover, mensuration methods, 501
Chemical-histochemical assay of skin acid phosphatase, 247
Chemical-histochemical cartilage polysaccharide methods, 475
Cholesterol, Schultz test, 308
Cholinesterase in cardiac conduction system, 87
Chromation effects on brain staining, 69
Chromatography and histochemistry of arteries, 152
Chromosomin, Feulgen reaction, 310
Conduction system of heart, esterases, 87
Connective tissue ground substance, 97
Connective tissue of marine sponges, 227
Cyanide aldehyde blockade reversal by HIO_4, 479
Diaphorases, di- and triphosphopyridine nucleotide, 254, 266, 284
p-Dimethylaminobenzaldehyde pyrrole reaction, 120
Deoxyribonucleic acid turnover, 508
Disulfide, ferric ferricyanide reaction, 23
Ehrlich reaction for pyrroles, 120
Elastin, mechanism of orcein stain, 64
Enterochromaffin and Ehrlich reaction, 120
Epithelial cell turnover, 531
Erythrocytes, nucleated, Feulgen aldehyde reactions, 36
Esterases of heart, 87
Esterases, indoxyl methods, 541
Esterase of salivary glands, 131
Ethylene groups in hair cortex, 382
Ferric ferricyanide reaction, 23
Feulgen DNA spectrum and protein, 461
Feulgen McManus bicolor procedure, 55
Feulgen reaction and bromination Schiff, 208
Feulgen reaction, chromosomin, 310
Fluorochrome demonstration of basophilia, 481
Freeze drying of fresh frozen sections, 555
Jonas Friedenwald 1897–1955, 85
Frozen sections, freeze drying of, 555
Glucose-6-phosphatase demonstration, 499
β-D-Glucuronidase demonstration in tumors, 498
β-Glucuronidase localization in rat, 570
Ground substance of cock's comb, 97
Hair cortex, ethylene groups, 382
Heart, esterase in conduction system, 87
HeLa Cells, acid phosphatase, 108
Histochemical titles from current literature, 79, 189, 295, 397, 494, 588
Homogenates, estimation of blood content, 84
Hormone effect on adrenal alkaline phosphatase, 112
Hypophyseal acidophils and HIO_4 Schiff, 470
Indigocarmine staining after chromation, 69
Indoxyl esterase methods, 541
Kala-azar parasite, mitochondria, 212
Keratohyalin, phenol oxidation, 318
Lead reaction of nucleolus, 331
Leishmania donovani, mitochondria, 212
Lens, ocular, Ehrlich reaction, 120
Letters to the Editor, 84, 300, 498, 592
Lipase effect on succindehydrogenase, 357
Lipofuscins, mechanism of Nile blue stain, 377

Liver and brain mitochondria and carbohydrate, 363
Marchi method, mechanism, 195
Marine sponge connective tissue, 227
Melanin and phenoloxidases, 318
Mensuration of cell turnover, 499
Metachromasia, 158
Metachromasia, ascorbic acid effect, 448
Microincineration of arthropod cuticle, 140
Mitochondria and carbohydrate metabolism, 363
Mitochondria of *Leishmania donovani*, 212
Mucolytic enzyme effect on HIO_4 Schiff, 200
Mucopolysaccharides of cartilage, 475
Myelin, degenerating and Marchi mechanism, 195
Neurosecretory substance of rat, 561
Nile blue stain mechanism, 377
Noradrenaline in hamster adrenal, 11
Nuclear protein and Feulgen DNA spectrum, 461
Nucleic acids, determination of microgram amounts, 1
Nucleic acid turnover, 508
Nucleolus, acid soluble component, 331
Obituary *Jonas Friedenwald*, 85
Olefine reaction in reference to hair cortex, 382
Orcein elastin, collagen staining mechanism, 64
Oxidative enzymes and tetrazolium, 254, 266, 284, 347, 357
Periodate oxidation of cyanohydrin, 479
Periodic acid, Feulgen bicolor aldehyde procedure, 55
Periodic acid Schiff and frog hypophysis, 470
Periodic acid Schiff, mucolytic enzyme effect, 200
Phenol oxidation in skin, 318
Phenyl phosphatase and paraffin embedding, 14
Phosphatase, acid, in HeLa cells, 108
Phosphatase, acid in skin, 247
Phosphatase, adenosine tri- in brain, 301
Phosphatase, alkaline in mouse adrenal, 112
Phosphatase, glucose-6- demonstration, 499
Phosphatase, methods for acid, 452
Phosphatase, phenyl and paraffin embedding, 14
Phosphopyridine nucleotide diaphorases, 254, 266, 284
Phosphorylase demonstration, 84
Phosphorylase in human skin, 300
Phosphorylation and basophilia, 41
Pituitary acidophils and HIO_4 Schiff, 470
Polysaccharide, acid, solution metachromasia, 448
Polysaccharides of cartilage, 475
Proceedings of the Histochemical Society, 403
Author and Discusser Index, 447
Protein binding of azo dyes, 17
Protein bound sulfhydryl and disulfide, 23
Protein, solution metachromasia, 448
Redox dyes and oxidative enzymes, 347
Renal oxidative enzymes, 266
Ribonucleic acid turnover, 508
Salivary gland esterase, 131
Schiff and thionin SO_2 aldehyde demonstration, 55
Spodography of arthropod cuticle, 140
Succindehydrogenase estimation, 389
Succindehydrogenase, lipase effect, 357
Succindehydrogenase, renal localization, 266
Succindehydrogenase, tetrazolium stains, 284
Sulfhydryl, ferric ferricyanide reaction, 23
Tetrazolium stains for phosphopyridine nucleotide diaphorases, 254
Tetrazolium stains, succindehydrogenase, 266, 284
Thionin SO_2 aldehyde reagent, 55
Toluidin blue staining after chromation, 69
Trichohyalin, polyphenol oxidation, 318
Tumors, demonstration of β-D-glucuronidase, 500
Uranyl and barium effects in destaining chromated brain, 69
Zymogen granules and Ehrlich reaction, 120
